Fashionably Styled In Tampa

By Ed Bertha

Lights, camera, action! Recently, this charming home was the site of a major photo shoot for *Tampa Style Magazine's* upcoming issue, featuring the creations of Miami-based fashion designer Francisco Azucar. The son of Cuban immigrants, Azucar's designs have a distinctive Latin influence. Models, fashion and shoes; what a fun day!

In Tampa location is everything - Rarely available in Ballast Point, a prestigious and serene Tampa suburban neighborhood, this spectacular newly constructed (2011), never occupied, private estate home defines luxury living at its finest! This magnificent 3,961 sq. ft. 4 Bedroom, 3 Bath, executive residence offers a fabulous setting for entertaining guests. The home's open floor plan creates a spacious setting for dinner parties or intimate gatherings that can extend outward onto the large covered lanai.

The home showcases exceptional craftsmanship with its elegant wood and wrought iron staircase, vaulted ceilings and Mediterranean exterior details. Accompanied by stunning finishes such as crown molding, marble and wood flooring throughout, the home's gourmet kitchen is sure to please a discerning chef with its flowing granite counter tops, regal cherry cabinets and Gallery Line appliances. The master suite and 2 guest bedrooms on the upper level lead to a large covered porch; the lower level has a family, living and dining room, study, kitchen and adjoining breakfast area, with French doors opening to the secluded patio area.

Stepping outside you find a private retreat, lushly landscaped, leading to the two car detached garage, containing plenty of room for storage. Take the short walk to Ballast Point Park, one of the city's most popular urban escapes, and enjoy breathtaking views of Hillsborough Bay and the Tampa skyline. Minutes away from schools, shopping, dining, West Shore Boulevard and downtown Tampa, you can enjoy the lifestyle that goes along with this luxurious private residence!
